

Global leaders in flexible couplings,
drainage & plumbing systems

Eccentric Series

Maintaining a
continuous
flowline in
critical grade

Features

- Aligns the inside wall of the two pipes
- Provides an obstruction free flow
- Meets ASTM C 1173 and D 5926
- 300 series stainless steel clamps

Specifications

- Maximum test pressure: 4.3 PSI (29.6KPA)
- Maximum operating temperature: 140° F non-consistent
